AUDITOR

The auditor of the Company is Ernst & Young Vietnam Limited.

SSI Securities Corporation

REPORT OF MANAGEMENT

Management of SSI Securities Corporation ("the Company") is pleased to present its report and the consolidated financial statements of the Company and its subsidiaries for the year ended 31 December 2025.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the consolidated financial statements of each financial year which give a true and fair view of the consolidated financial position of the Company and its subsidiaries and of the consolidated results of its operations, its consolidated cash flows, and its consolidated changes in owners' equity for the year. In preparing those consolidated financial statements, Management is required to:

- ▶ select suitable accounting policies and apply them consistently;
- ▶ make judgments and estimates that are reasonable and prudent;
- ▶ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the consolidated financial statements; and
- ▶ prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and its subsidiaries and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying consolidated financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Company and its subsidiaries as at 31 December 2025 and of the consolidated results of its operations, its consolidated cash flow statement and its consolidated statement of changes in owners' equity for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of the consolidated financial statements.

Mr. Nguyen Duc Thong

INDEPENDENT AUDITORS' REPORT

**To: The Shareholders of
SSI Securities Corporation**

We have audited the accompanying consolidated financial statements of SSI Securities Corporation ("the Company") and its subsidiaries as prepared on 26 March 2026 and set out on pages 6 to 98 which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated income statement, the consolidated cash flow statement and the consolidated statement of changes in owners' equity for the year then ended and the accompanying notes thereto.

Management's responsibility

The Company's Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of consolidated financial statements, and for such internal control as the Management determines is necessary to enable the preparation and presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and true and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the consolidated financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Shape the future
with confidence

Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of the Company and its subsidiaries as at 31 December 2025, and of the consolidated results of their operations, their consolidated cash flows and their consolidated changes in owners' equity for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of consolidated financial statements.

1. CORPORATE INFORMATION (continued)

Key characteristics of the Company's operation which affect the Company's consolidated financial statements

The Company's consolidated profit after tax for the financial period ended 31 December 2025 was VND 4,106,880,733,899, an increase of VND 1,261,771,701,227 (equivalent to a 44% increase) compared to 2024 mainly owing to the following reasons:

- Gross profit from financial assets at FVTPL and AFS in 2025 increased by 21% compared to 2024, corresponding to a value of VND 537,094,433,902, thanks to growth in investment activities in securities and stock trading.
- Outstanding balance of margin lending in 2025 has grown better than in 2024, increasing by 71% in revenue from loan equivalent to VND 1,482,638,277,946, interest expense increased by 70% equivalent to VND 1,056,036,340,605.
- The trading volume of the stock market increased significantly, lead to securities brokerage revenue increased by 41% amounted to VND 677,290,878,659, expenses for brokerage increased by 21% equivalent to VND 276,812,411,740 compared to 2024.

2. BASIS OF PRESENTATION

2.1 ***Applied accounting standards and system***

The consolidated financial statements of the Company are prepared and presented in Vietnamese Dong ("VND") in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated 30 December 2014, Circular No. 334/2016/TT-BTC dated 27 December 2016 amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular No. 210/2014/TT-BTC and other Vietnamese Accounting Standards promulgated by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 1);
- ▶ Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 2);
- ▶ Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 3);
- ▶ Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 4); and
- ▶ Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 5).

2. BASIS OF PRESENTATION (continued)

2.2 *Basis on consolidation*

The consolidated financial statements comprise the financial statements of SSI Securities Corporation (the parent company) and its subsidiaries as at 31 December 2025.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the parent company obtains control and continued to be consolidated until the date that such control ceases.

The financial statements of the parent company and subsidiaries are prepared for the same reporting year using consistent accounting policies.

All intra-company balances, incomes and expenses, and unrealized gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries which are not held by the parent company and are presented separately in the consolidated income statement and within owners' equity in the consolidated statement of financial position, separately from parent owners' equity.

2.3 *Registered accounting documentation system*

The Company's registered accounting documentation system is the General Journal system.

2.4 *Fiscal year*

The Company's fiscal year starts on 01 January and ends on 31 December.

2.5 *Accounting currency*

The consolidated financial statements are prepared in Vietnam Dong ("VND"), which is the accounting currency of the Company.

2.6 *Accounting regulation issued but not yet effective*

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the enterprise accounting regime ("Circular 99"), replacing Circular No. 200/2014/TT-BTC providing guidance on the enterprise accounting regime issued by the Ministry of Finance on 22 December 2014 and several other related regulations. Circular 99 takes effect from 01 January 2026 and applies to enterprises with a financial year beginning on or after 01 January 2026.

The Company is in the process of evaluating the implications of Circular 99 on the preparation and presentation of its financial statements and will apply Circular 99 for the financial year ended 31 December 2026.

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS

The Management confirms that the Company has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of consolidated financial statements.

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS (continued)

Accordingly, the accompanying consolidated financial statements and their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the consolidated financial position and consolidated results of operations, consolidated cash flows and consolidated changes in owners' equity in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Changes in accounting policies

The accounting policies used by the Company to prepare the consolidated financial statements have been applied consistently with those used to prepare the consolidated financial statements for the year ended 31 December 2024.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

Cash deposited by customers for securities trading and cash deposited by securities issuers are presented off-statement of financial position.

4.3 Financial assets at fair value through profit or loss (FVTPL)

Financial assets recognized at fair value through profit or loss are financial assets that satisfy either of the following conditions:

- a) It is classified as held for trading. A financial asset is classified as held for trading if:
 - ▶ it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
 - ▶ there is evidence of a recent actual pattern of short-term profit-taking; or
 - ▶ it is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).
- b) Upon initial recognition, a financial asset will be presented more reasonably if classified at fair value through profit or loss as it meets one of the following criteria:
 - ▶ The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognising gains or losses on a different basis;
 - ▶ The assets are part of a group of financial assets which are managed, and their performance is evaluated on a fair value basis, in accordance with the Company's risk management policy or investment strategy.

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.3 *Financial assets at fair value through profit or loss (FVTPL)* (continued)

Increase in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous year is recognized into the consolidated income statement under "Gain from revaluation of financial assets at FVTPL". Decrease in the difference arising from revaluation of financial assets at FVTPL in comparison with the previous year is recognized into the consolidated income statement under "Loss from revaluation of financial assets at FVTPL".

Transaction costs relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the consolidated income statement.

4.4 *Held-to-maturity investments (HTM)*

Held-to-maturity investments are non-derivative financial assets with determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity other than:

- a) those that the entity upon initial recognition designates as at fair value through profit or loss;
- b) those that the entity designates as available-for-sale; and
- c) those meet the definition of loans and receivables.

Held-to-maturity investments are initially recognized at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, issuance agency fee and banking transaction fee). After initial recognition, held-to-maturity financial investments are subsequently measured at amortized cost using the effective interest rate ("EIR").

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or irrecoverability (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the year of a financial asset or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial assets or financial liabilities.

HTM investments are subject to an assessment of impairment at the consolidated financial statements date. Provision is made for an HTM investment when there is any objective evidence that the investment is irrecoverable or there is uncertainty of recoverability, resulting from one or more events that have occurred after the initial recognition of the investment and that event has an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the impaired debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.5 Loans

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, with the exceptions of:

- a) The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;
- b) The amounts categorized by the Company as available-for-sale upon initial recognition; or
- c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available-for-sale.

Loans are recognized initially at cost (disbursement amount of the loans). After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate ("EIR").

Amortized cost of loans is the amount at which the loans is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus (-) any reduction for impairment or irrecoverability (if any).

Loans are subject to an assessment of impairment at the consolidated financial statements date. Provision is made for loan based on its estimated loss which is determined by the negative difference between the market value of securities used as collaterals for such loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

4.6 Available-for-sale financial assets (AFS)

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as:

- a) loans and receivables;
- b) held-to-maturity investments; or
- c) financial assets at fair value through profit or loss.

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, AFS financial assets are subsequently measured at fair value.

Difference arising from the revaluation of AFS financial assets in comparison with previous year is recognized under "Gain/(loss) from revaluation of AFS financial assets" in "Other comprehensive income after tax" which is a part of the consolidated income statement.

At the consolidated financial statements date, the Company assessed whether there is any objective evidence that an AFS financial asset is impaired. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under "Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans".

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Available-for-sale financial assets (AFS) (continued)

- ▶ Where an equity instrument is classified as available-for-sale, evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its original cost. "Significant" is to be evaluated against the original cost of the asset and "prolonged" indicates the period in which the fair value has been below its original cost. When any evidence of impairment exists, provision is determined as the difference between the AFS asset's cost and fair value at the assessment date.
- ▶ Where a debt instrument is classified as available-for-sale, the assessment of impairment is conducted using the same criteria as those applied for HTM investments. When there is any evidence of impairment, provision for an AFS asset is determined as the negative difference between its fair value and amortized cost at the assessment date.

4.7 Fair value/market value of financial assets

Fair value/market value of the securities is determined as follows:

- ▶ For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- ▶ For unlisted securities registered for trading on the Unlisted Public Company Market ("UPCoM"), their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- ▶ For delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date; and
- ▶ The market price for unlisted securities and securities unregistered for trading on the Unlisted Public Company Market ("UPCoM") used as a basis for setting up the revaluation is the trading prices of the latest transaction on over-the-counter ("OTC") market.

For securities which do not have reference price from the above sources, the revaluation is determined based on the financial performance and the book value of securities issuers as at the assessment date.

4.8 Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- ▶ The rights to receive cash flows from the assets have expired; or
- ▶ The Company has transferred its rights to receive cash flows from the assets or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
 - the Company has transferred substantially all the risks and rewards of the assets, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Derecognition of financial assets (continued)

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement; and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

4.9 Reclassification of financial assets

Reclassification when selling financial assets other than FVTPL

When selling financial assets other than FVTPL, securities companies are required to reclassify those financial assets to financial assets at FVTPL. The difference arising from the revaluation of financial assets AFS which was recognized in "Difference from revaluation of assets at fair value" will be recognized as corresponding revenue or expenses at the date of reclassification of financial assets AFS for selling purpose.

Reclassification due to change in purpose or ability to hold

Securities companies are required to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- ▶ Non-derivative financial assets at FVTPL or financial assets that are not required to be classified as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.
- ▶ Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and to reassessed at fair value. The difference arising from revaluation between carrying value and fair value are recognized under "Difference from revaluation of assets at fair value" in Owners' equity.

4.10 Investments in associates

An associate is an entity in which the Company has significant influence but that is neither a subsidiary nor a joint venture. The Company generally deems they have significant influence if they have from 20% of the voting rights.

The Company's investments in associates are accounted for using the equity method of accounting.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 *Investments in associates* (continued)

Under the equity method, the investment is initially carried in the consolidated statement of financial position at cost. In the case of acquisition, the difference between cost of the investment and the determinable net asset fair value in correspondence with the Company's shares in associate at the acquisition date is defined as goodwill. Negative goodwill is recognized in "Other investment revenue (share of profits/(loss) in associates)" of the consolidated income statement. Positive goodwill will be reflected in the value of investment in associate of the consolidated statement of financial position.

When determining the determinable fair value of net assets in associates, the Company applies principles and suppositions as follows:

- ▶ Fair value of cash and short-term deposit, payables to suppliers and other short-term liabilities approximates their carrying value due to their short term;
- ▶ Fair value of receivables is determined based on estimation of recoverability; therefore, the Company estimates fair value at cost less provisions for receivables;
- ▶ Fair value of financial investments is determined at market prices;
- ▶ Fair value of fixed assets approximates their cost less accumulated depreciation;
- ▶ Fair value of items qualified in the auditors' report in the audited financial statements of associates is determined as zero (0); and
- ▶ Fair value of other immaterial assets and debts is determined as their carrying value.

After the initial recognition, the investment is adjusted to changes of the Company's share in associates' post-acquisition net assets. The consolidated income statement reflects the share of the post-acquisition results of operation of the associates. Changes in net asset value of associates, including changes arisen from revaluation of fixed assets and investments, foreign exchange differences and differences arisen from consolidation of associates are not reflected in the consolidated income statement, but recognized directly in "Undistributed profit" in the consolidated statement of financial position.

The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend receivable from associates is deducted from the carrying amount of the investment.

The financial statements of the associates are prepared for the same reporting period as the Company, using the consistent accounting policies. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.11 *Mortgaged financial assets*

During the year, the Company had mortgaged/pledged financial assets which are used as collaterals for financial obligations of the Company.

According to the terms and conditions of the mortgage/pledge contracts, during the valid period of the contracts, the Company is not allowed to sell, transfer or use the mortgaged/pledged assets under repurchase or swap contracts with any other third party.

In case the Company is unable to fulfil its obligations, the mortgagee/pledgee is allowed to use the mortgaged/pledged assets to settle the obligations of the Company after a period specified in the mortgage/pledge contracts, since the obligations due date.

The mortgaged/pledged assets are monitored in the Company's consolidated statement of financial position in accordance with accounting principles relevant to the assets' classification.

4.12 *Receivables*

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences or have deceased. Increases or decreases to the provision balance are recorded as "*Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans*" and "*Other operating expenses*" in the consolidated income statement.

The provision for doubtful receivables is made in accordance with current regulations.

For receivables that are not yet due but are considered uncollectible, the Company estimates the potential loss (up to the value of the debt recorded in the accounting books) to make provision.

4.13 *Tangible fixed assets*

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises of its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.14 Intangible fixed assets

Intangible assets are stated at cost less accumulated amortization.

The cost of an intangible fixed asset comprises of its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and other expenditures are charged to the consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

4.15 Depreciation and amortisation

Depreciation and amortisation of tangible fixed assets and intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Office machineries	3 - 5 years
Means of transportation	6 - 10 years
Office equipment	3 - 5 years
Software	3 - 10 years
Other intangible fixed assets	2 - 5 years

4.16 Investment properties

Investment properties are stated at cost, inclusive of related transaction fees less accumulated depreciation.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company.

Depreciation and amortisation of the property is calculated on a straight-line basis over the estimated useful life of each asset. The depreciation period is 27.5 years.

4.17 Operating lease

Whether an agreement is determined as a property lease agreement depends on the nature of the agreement at the beginning: whether the implementation of the agreement depends on the use of a certain asset and whether the agreement includes clauses on the use rights of the asset.

Rentals fee respective to operating leases are charged to the consolidated income statement on a straight-line basis over the term of the lease.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.18 *Prepaid expenses*

Prepaid expenses, including short-term prepaid expenses and long-term prepaid expenses in the consolidated statement of financial position, are amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as prepaid expenses and are amortised over the period from one (1) year to three (3) years to the consolidated income statement:

- ▶ Office renovation expenses;
- ▶ Office rental expenses;
- ▶ Office tools and consumables; and
- ▶ Software services extension, maintenance and warranty expenses.

4.19 *Repurchase agreements*

Assets sold under the agreements to be repurchased at a specified future date ("repos") are not derecognized from the consolidated statement of financial position. The corresponding cash received is recognized in the consolidated statement of financial position as a liability. The difference between the sale price and repurchase price is treated as interest expense and is amortized in the consolidated income statement over the life of the agreement using the straight-line method.

4.20 *Borrowings*

Borrowings of the Company are recorded and stated at the principal balance at the end of the accounting year.

4.21 *Payables and accruals expenses*

Payables and accruals expenses are recognised for amounts to be paid in the future for bond interest payables, goods and services received, whether or not billed to the Company.

4.22 *Covered warrants*

Covered warrants are secured securities with collaterals issued by the Company which give its holder the right to buy an amount of an underlying security at an exercise price or to receive a sum of money equal to the difference between the price (index) of the underlying securities and the exercise price (exercise index), when the former is higher than the latter, at the strike time.

When covered warrants are issued, the Company records an increase in covered warrant payables, at the same time monitoring the number of covered warrants still allowed to be issued. The transaction costs relating to the purchase and issuance of covered warrants are recognized when incurred as purchase costs of financial assets at FVTPL in the consolidated income statement. Profit or loss resulted from covered warrants when repurchase, upon the maturity of covered warrants or when covered warrant is recalled, are recognized under "Gain from disposal of financial assets at FVTPL" or "Loss from disposal of financial assets at FVTPL" in the consolidated income statement.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**4.22 Covered warrants (continued)**

At the end of the year, the Company revaluates the covered warrants at fair value. The decrease in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Gain from financial assets at FVTPL" (line "Gain from revaluation of outstanding covered warrant payable"). The increase in difference arising from revaluation of outstanding covered warrants at fair value in comparison with previous year is recognized in "Loss from financial assets at FVTPL" (line "Loss from revaluation of outstanding covered warrant payable").

The securities used as hedging for the covered warrants are monitored by the Company. At the end of the year, securities used as hedging for the covered warrants are revaluated at fair value and the differences arising from revaluation is recorded like the revaluation of financial assets at FVTPL.

4.23 Employee benefits**4.23.1 Post-employment benefits**

Post-employment benefits are paid to retired employees of the Company by the Social Insurance Agency, which belongs to the Ministry of Labour and Social Affairs. The Company contributes to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.5% of an employee's basic salary, salary-related allowances and other supplements. Other than that, the Company has no further obligation relating to post-employment benefits.

4.23.2 Severance allowance

According to the Labor Code No. 45/2019/QH14 effective from 01 January 2021 and Decree No. 145/2020/ND-CP of the Government – detailing and guiding on executing some articles of the Labor Code on working conditions and labor relations, the Company is responsible for paying a severance allowance equal to half a month's salary for each working year to employees who voluntarily resign and fully meet factors in accordance with provisions of law. Working time to calculate severance allowance is the total time the employee has actually worked for the Company minus the time the employee has participated in unemployment insurance according to the provisions of the law on unemployment insurance and the working time has been paid severance allowance by the employer. The average monthly salary is calculated to pay severance allowance will be based on the average salary of the last six months up to the time the employee quits.

4.23.3 Unemployment insurance

According to Article 57 of the Employment Law No. 38/2013/QH13 which took effect from 01 January 2015 and the Government's Decree No. 28/2015/ND-CP dated 12 March 2015 detailing the implementation of a number of Article of the Employment Law on unemployment insurance, the Company is required to contribute to the unemployment insurance at the rate of 1% of salary and wage fund of unemployment insurance joiners and deduct 1% of monthly salary and wage of each employee to contribute to the unemployment insurance fund.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**4.24 Foreign currency transactions**

Transactions in currencies other than the Company's reporting currency of VND are recorded at the actual transaction exchange rates of commercial banks at transaction dates. At the end of the year, monetary balances denominated in foreign currencies are determined as follows:

- ▶ Monetary assets are translated at buying exchange rate of the commercial bank where the Company conducts transactions regularly.
- ▶ Monetary liabilities are translated at selling exchange rate of the commercial bank where the Company conducts transactions regularly.

All foreign exchange differences incurred during the year and arisen from the revaluation of monetary accounts denominated in foreign currencies at the end of the year are taken to the consolidated income statement.

4.25 Currency derivative contract

The Company participates in currency transactions with banks which provide services (foreign currency forward transactions, foreign currency swaps, etc) for the purpose of hedging and mitigating risks of exchange rate and cash flow in the future. Gain/loss arising from transactions during the year is recognized in the consolidated income statement.

4.26 Treasury shares

Equity instruments issued by the Company which are reacquired (treasury shares) are recognized at cost and deducted from owners' equity. No gain or loss is recognized upon purchase, sale, issue or cancellation of the Company's owners' equity instruments.

4.27 Conversion of subsidiaries' financial statements into parent company's accounting currency

Subsidiaries' financial statements which are prepared in the foreign currency that is different from the Parent Company's accounting currency are converted into the Parent Company's accounting currency for consolidation purpose. Actual transaction exchange rates used for converting subsidiaries' financial statements are determined as follows:

- ▶ For assets, the exchange rate used for translation is the banking buying rate at the reporting date;
- ▶ For liabilities, the exchange rate for translation is the banking selling rate at the reporting date;
- ▶ In case the difference between bank purchasing and selling rate at the reporting date is not over 0.2%, the applied exchange rate will be the average of purchasing and selling rate;
- ▶ All items on the income statement and cash flow statement are converted using the actual exchange rate at the time of the transaction. Average exchange rate is allowed to be applied if it approximates the actual exchange rate at the time of the transaction (the difference is 1% or less). If the gap between the exchange rate at the beginning of the year and at the end of the year is higher than 20%, the Company shall apply the exchange rate at the end of the year.

Foreign exchange rate difference arising from the translation of subsidiary's financial statements is accumulatively reflected in "Foreign exchange rate difference" item of the Owners' equity section of the consolidated statements of financial position.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.28 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of receipts or receivables less trade discount, concessions and sales return. The following specific recognition criteria must also be met before revenue is recognized:

Revenue from brokerage services

When the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion. Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Revenue from trading of securities

Revenue from trading of securities is determined by the difference between the selling price and the weighted average cost of securities sold.

Other income

Other incomes include revenues from irregular activities other than turnover-generating activities including: revenues from asset liquidation and sale; fines paid by customers for their contract breaches; collected insurance compensation; collected debt which had been written off and included in the preceding period expenses; payable debts which are now recorded as revenue increase as their owners no longer exist; collected tax amounts which now are reduced and reimbursed; and other revenues are recorded to other incomes as stipulated by VAS 14 – "Revenue and other income".

Interest income

Revenue is recognized on accrual basis (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognized when the Company's entitlement as an investor to receive the dividends is established, except for stock dividend in which only the number of shares is updated.

Properties selling/leasing revenue

Properties selling revenue is recognized when all conditions are satisfied according to current accounting regulations.

Properties leasing revenue is recognized into operational result on a straight-line basis over the leasing contract life.

Revenues from other services

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion.

Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

4.29 Borrowing costs

Borrowing costs include accrued interest and other expenses which are directly attributable to the Company's borrowings.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.30 *Cost of securities sold*

The Company applies moving weighted average method to calculate cost of proprietary securities sold.

4.31 *Corporate income tax*

Current income tax

Current income tax assets and liabilities for the current and prior year are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the reporting date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognized directly to owners' equity, in which case the current income tax is also dealt with in owners' equity.

Current income tax assets and liabilities are offset only when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax

Deferred income tax is provided using for temporary differences at the reporting date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which deductible temporary differences, carry forward of unused tax credits and unused tax losses can be utilized, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred income tax assets is reviewed at the reporting date and reduced to a certain extent that sufficient taxable profits will be available to allow all or part of the deferred income tax assets to be recovered. Previously unrecognized deferred income tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.31 *Corporate income tax* (continued)

Current income tax (continued)

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized, or the liability is settled based on tax rates and tax laws that have been enacted at the reporting date. Deferred tax is recorded to the consolidated income statement, except when it relates to items recognized directly to owners' equity, in which case the deferred tax is also dealt with in owners' equity. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxable entity and the same taxation authority, and the Company intends to settle its current tax assets and liabilities on a net basis.

4.32 *Owners' equity*

Contributed capital from shareholders

Contributed capital from stock issuance is recorded in Charter Capital at par value.

Undistributed profit

Undistributed profit comprises of realized and unrealized undistributed profit.

Unrealised profit during the year is the difference between gain and loss arisen from revaluation of financial assets at FVTPL or others through profit or loss in the consolidated income statement, and the deferred income tax payables related to the increase in revaluation of FVTPL financial assets and others.

Realised profit during the year is the net difference between total revenue and income, and total expenses in the consolidated income statement of the Company, except for gain or loss recognized in unrealised profit.

Reserves

Reserves are appropriated in accordance with the Resolution of the General Meeting of Shareholders.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.33 *Appropriation of net profits*

Net profit after tax is available for appropriation to shareholders after being approved by the General Meeting of Shareholders and after making appropriation to funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

4.34 *Segment information*

A segment is a component determined separately by the Company which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Company's business segment is derived mainly from the services provided to investors. Management defines the Company's geographical segments to be based on the location of the Company's assets.

4.35 *Related parties*

Parties are considered to be related parties of the Company if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families.

4.36 *Nil balances*

Items or balances required by Circular No. 210/2014/TT-BTC dated 30 December 2014 and Circular 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance that are not shown in these consolidated financial statements indicate nil balances.

Total	63,580,248,122	3,087,423,489,644,481

7. FINANCIAL ASSETS

Concepts of financial assets

Cost

Cost of a financial asset is the amount of cash or cash equivalents paid, disbursed or payable for such financial asset at its initial recognition. The transaction costs incurred directly from the purchase of financial asset might or might not be included in the cost of the financial asset depending on the category that the financial asset is classified in.

Fair value/market value

The fair value or market value of a financial asset is the price at which the financial asset would be traded voluntarily between knowledgeable parties on an arm's length basis.

The fair value/market value of securities is determined using the method described in *Note 4.7*.

Amortised cost

Amortized cost of a financial investment (which is debt instrument) is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

For presentation purpose of consolidated financial statements, provision for diminution in value or irrecoverability of financial assets is recognized in "*Provision for impairment of financial assets and mortgage assets*" in the consolidated statement of financial position.

Carrying amount

Carrying amount of a financial asset is the amount at which the financial asset is recognized in the consolidated statement of financial position. Carrying amount of a financial asset might be recognized at fair value (for FVTPL and AFS financial assets) or at amortized cost (for HTM investments and loans), depending on the category that the financial asset is classified.

41. CORPORATE INCOME TAX

41.1 Corporate income tax ("CIT")

The tax returns filed by the Company are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the financial statements could change later upon final determination by the tax authorities.

The current tax payable is based on taxable profit for the year. The taxable profit of the Company differs from the profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted by the reporting date. The Company is required to fulfil its corporate income tax obligation with the current tax rate of 20% on the total taxable profit according to Decree 320/2025/ND-CP on elaboration of some Articles and measures for organization, provision of guidelines for implementation of the Law on Corporate Income Tax dated 15 December 2025.

Expense recorded directly to owners' equity	(28,857,077,256)	(18,175,194,359)
- Loss from change in ownership rate of associates in its subsidiaries	(21,353,949,236)	(15,437,694,390)
- Other loss recorded directly to owners' equity	(7,503,128,020)	(2,737,499,969)
Total	<u>(14,226,639,164)</u>	<u>21,808,502,529</u>

44. EARNINGS PER SHARE

Earnings per share ("EPS") is calculated by dividing the net profit after tax attributable to ordinary shareholders of the Company by the weighted average number of outstanding ordinary shares in issue during the year. After tax profit attributable to ordinary shareholders of the Company is calculated as after-tax profit after deduction for setting up non-shareholders' reserves. The financial statements for the year ended 31 December 2025 are prepared on the basis that the fund appropriation ratios have not yet been applied due to insufficient information. For the purpose of preparing consolidated financial statements, other comprehensive incomes have not yet been included in the net profit after tax to calculate the earnings per share indicator since there is no detailed guidance.

	<u>Current year</u>	<u>Previous year (restated)</u>
Net profit after tax attributable to ordinary shareholders (VND)	4,106,090,416,749	2,704,221,369,052
Weighted average number of ordinary shares for calculation of earnings per share	2,000,373,695	1,824,528,405
Earnings per share (VND)	2,053	1,482

44. EARNINGS PER SHARE (continued)

Restatement

The Company has distributed profits in 2024 according to Resolution No. 01/2025/NQ-DHDCD dated 18 April 2025 of the General Meeting of Shareholders in 2025. Accordingly, the amount appropriate to the Bonus and Welfare fund from retained earnings in 2024 are approved by the General Meeting of Shareholders. Thus, the basic earnings per share for the year ended 31 December 2024 are restated as follows:

	<u>Before restatement</u>	<u>After restatement</u>
Net profit after tax attributable to ordinary shareholders (VND)	2,835,023,120,364	2,704,221,369,052
Weighted average number of ordinary shares for calculation of earnings per share	1,824,528,405	1,824,528,405
Earnings per share (VND)	1,554	1,482

45. DILUTED EARNINGS PER SHARE

Diluted earnings per share is calculated by dividing the net profit after tax attributable to ordinary shareholders of the Company by the number of ordinary shares used in the calculation of diluted EPS.

Profit after tax is attributable to ordinary shareholders of the Company is calculated as profit after tax after deduction for setting up non-shareholders' reserves according to according to the proportion of the annual General Meeting of Shareholders, with the following adjustments:

- Dividends or other items related to the potential dilutive ordinary shares are deducted to profit attributable to shareholders of the parent company;
- Any accrued interest during the year related to the potential dilutive ordinary shares; and
- Other changes in income or expenses resulting from the conversion of potential dilutive ordinary shares.

For the purpose of preparing consolidated financial statements, other comprehensive incomes not yet included in the net profit after tax to calculate the EPS indicator since there is no detailed guidance.

The number of ordinary shares used in the calculation of diluted EPS is determined as the total of the weighted average number of outstanding ordinary shares during the year and the weighted average of potential ordinary shares in case all potential dilutive ordinary shares are converted into ordinary shares. Potential dilutive ordinary shares are assumed to be converted into ordinary shares at the beginning of the reporting year; or at the date of issuance, if the issuance date is later than the beginning of the reporting date; or at the incurred date of potential ordinary shares which are share options, covered warrants or other equivalent instruments.

Segment information by geographic area

Company's activities are mainly in the territory of Vietnam.

The Company has a wholly-owned US subsidiary, SSI International Incorporated ("SSIIC"), which operates in the US real estate business. However, SSIIC's total revenue, expenses and total assets are very low compared to the Company's total revenue, expense and total assets (less than 5%). As a result, the Company does not present segmental reports by geographical area in the notes to the consolidated financial statements.

Total	<u>9,383,767,983,354</u>	<u>2,184,682,009,679</u>

46.5 Purposes and policies of financial risk management

The Company's financial liabilities comprise mostly loans and borrowings, payables to suppliers and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company has loans, trade and other receivables, cash and short-term deposits that arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk.

Risk management is integral to the whole business of the Company. The Company has a system of controls in place to maintain an acceptable balance between the cost arisen from risks and the cost of managing the risks. The Management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved.

Management reviews and agrees policies for monitoring each of these risks which are summarized below:

46. OTHER INFORMATION (continued)**46.5 Purposes and policies of financial risk management** (continued)***Market risk***

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. There are four types of market risk: interest rate risk, currency risk, commodity price risk and other price risk, such as equity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, financial assets at FVTPL, covered warrants and available-for-sale investments.

The Company manages market risk by analysing financial sensitivity of the Company as at 31 December 2025 and 31 December 2024. When analysing sensitivity, Management assumes that sensitivity of available-for-sale debt instruments in the statement of financial position and other related items in the income statement is affected by changes in corresponding market risk. The analysis is based on financial assets and liabilities held by the Company as at 31 December 2025 and 31 December 2024.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to market risk due to changes in interest rate relates primarily to cash and short-term deposits of the Company and its subsidiaries. Financial liabilities have fixed interest rate.

The Company manages interest rate risk by looking at the competitive structure of the market to identify a proper interest rate policy which is favourable for the Company and its subsidiaries purposes within its risk management limits. The Company considers the risk of the impact of interest rate changes on the Company at the reporting date to be negligible. Most of the Company is bank deposits, certificates of deposit, corporate bonds and loans have fixed interest rates and are recovered according to the specified maturity of each item. Loans with fixed interest rates are determined in each specific loan agreement.

Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (in which revenue or expense is denominated in a different currency from the Company's accounting currency) and its investments in overseas subsidiaries.

The Company manages foreign exchange risk by considering current and expected market conditions when the Company plans to buy and sell commodities in the future in foreign currencies. For the purpose of minimizing foreign currency risks, the Company applies hedging measures by entering into foreign currency derivative contracts with commercial banks.

As at the reporting date, the Company has a loan denominated in foreign currency at banks at the value of USD 225,000,000 (equivalent to VND 5,938,450,000,000). The increase (or decrease) of 10% on the USD/VND exchange rate could possibly result in a corresponding increase (or decrease) in finance expense from the interest expense of the Company.

46. OTHER INFORMATION (continued)

46.5 *Purposes and policies of financial risk management* (continued)

Market risk (continued)

Equity price risk

Listed and unlisted securities which are held by the Company are affected by market risk arising from the uncertainty of future value of invested securities. The Company manages equity price risk by establishing investment limits. The Company's Investment Council considers and approves investments decisions in securities.

As at the reporting date, the fair value of investment in listed shares and fund certificates (FVTPL and AFS) of the Company was VND 1,781,417,867,702. The 10% increase (or decrease) in market index would possibly result in a corresponding increase (or decrease) in revenue from investment of the Company, depending on its magnitude and length as well as the Company's ownership position of securities which have significant influence on market index.

Credit risk

Credit risk is the risk that counterparty would not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily for receivables) and from its financing activities, including deposits with banks, foreign exchanges activities and other financial instruments.

Receivables

Customer credit risk is managed by the Company based on its established policies, procedures and control relating to customer credit risk management. Credit quality of customers is evaluated on the basis of Management's assessment.

Outstanding customer loans, receivables are regularly monitored. Customer credit quality's impairment is analysed at each reporting date on an individual basis for major clients. The Company closely monitors outstanding receivables and operates a credit control unit to mitigate credit risk. Due to the fact that the Company's receivables relate to a large number of diversified customers, there is no significant concentration of credit risk.

46. OTHER INFORMATION (continued)

46.5 Purposes and policies of financial risk management (continued)

Credit risk (continued)

Bank deposits

The Company's bank balances are mainly maintained with high credit rating banks in Vietnam. Credit risk from balances with banks is managed by the Company's Capital and Financial Business Division in accordance with the Company's policy. The Company's maximum exposure to credit risk for the components of the statement of financial position at each reporting date is the carrying value as presented in *Note 5*, *Note 7.3* and *Note 11*. The Company evaluates the concentration of credit risk with respect to bank deposits as low.

Margin lending and advances to customers

The Company manages its credit risks via the use of internal control policies, processes and procedures relevant to margin lending and advance payments to customers. The Company only provides margin lending with securities eligible to perform margin trading under the Regulation on Margin Lending and is rated in accordance with SSI's principle of share quality assessment. The credit limits are measured based on value of collateral assets, customer's credit rating and other indicators.

The following loans are considered as overdue as at 31 December 2025 (excluding contracts that was extended or liquidated before the signing date of this report). Except for financial assets which are reserved for impairment as stated in *Note 8* and *Note 9*, according to the Management's assessment, the remaining financial assets are neither overdue nor impaired as they are all liquid.

Liquidity risk

The liquidity risk is the risk that the Company will encounter difficulties in meeting financial obligations. The Company's exposure to liquidity risk arises when the Company is unable to meet its financial obligations as they fall due, primarily due to mismatches in the maturity terms of financial assets and liabilities. The maturity terms of financial assets and liabilities reflect the remaining period of financial assets and liabilities from the reporting date to the date of settlement set out in the contracts or terms of issuance. For FVTPL and AFS financial assets, the maturity terms are determined based on the liquidity of the assets (the ability to sell and purchase the assets in short-term) on the market.

The Company monitors its liquidity risk by maintaining a level of cash and cash equivalents, borrowings deemed adequate by the Board of Management to finance the Company's operations and to mitigate the effects of fluctuations in cash flows.
