2. BASIS OF PRESENTATION

2.1 *Applied accounting standards and system*

The consolidated financial statements of the Company are prepared and presented in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated 30 December 2014, Circular No. 334/2016/TT-BTC dated 27 December 2016 amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular No. 210/2014/TT-BTC and other Vietnamese Accounting Standards promulgated by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Standards on Accounting (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Standards on Accounting (Series 5).

2.2 *Basis of consolidation*

The consolidated financial statements comprise the financial statements of SSI Securities Corporation (the parent company) and its subsidiaries as at 30 September 2026.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the parent company obtains control and continue to be consolidated until the date that such control ceases.

The financial statements of the parent company and subsidiaries are prepared for the same reporting period using consistent accounting policies.

All intra-company balances, incomes and expenses, and unrealized gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries which are not held by the Company and are presented separately in the consolidated income statement and within equity in the consolidated statement of financial position, separately from parent shareholders' equity.

2.3 *Registered accounting documentation system*

The Company's registered accounting documentation system is the General Journal Voucher system.

2.4 *Fiscal year*

The Company's fiscal year starts on 01 January and ends on 31 December.

The Company also prepares its interim financial statements for the six-month period from 1 January to 30 June and its quarterly financial statements for the three-month periods ended 31 March, 30 June, 30 September and 31 December each year.

2.5 *Accounting currency*

The consolidated financial statements are prepared in Vietnam Dong ("VND"), which is the accounting currency of the Company.

3. STATEMENT ON COMPLIANCE WITH VIETNAMESE ACCOUNTING STANDARDS AND SYSTEMS

Management confirms that the Company has complied with Vietnamese Accounting Standards and Vietnamese Enterprise Accounting Systems, accounting guidance applicable to securities companies and statutory requirements relevant to preparation and presentation of consolidated financial statements.

Accordingly, the accompanying 3rd Quarter of 2026 consolidated statement of financial position, consolidated income statement, consolidated cash flows statement, consolidated statement of changes in owners' equity and notes to the 3rd Quarter of 2026 consolidated financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position and results of operations and cash flows and changes in owners' equity in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, highly liquid investments with an original maturity of three (03) months or less that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

Cash deposited by customers for securities trading and cash deposited by securities issuers are presented off-balance sheet.

4.2 Financial assets at fair value through profit or loss (FVTPL)

Financial assets recognized at fair value through profit or loss are financial assets that satisfy either of the following conditions:

a) It is classified as held for trading. A financial asset is classified as held for trading if:
   - It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
   - There is evidence of a recent actual pattern of short-term profit-taking; or
   - It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).

b) Upon initial recognition, a financial asset is designated by the entity as at fair value through profit or loss as it meets one of the following criteria:
   - The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognising gains or losses on a different basis; or
   - The financial assets are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

The decrease in difference arising from revaluation of FVTPL financial assets in comparison with previous period is recognized into the consolidated income statement under "Loss from revaluation of financial assets at FVTPL". The increase in difference arising from revaluation of FVTPL financial assets in comparison with previous period is recognized into the consolidated income statement under "Gain from revaluation of financial assets at FVTPL".

Transaction costs relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the consolidated income statement.

4.3 Held-to-maturity investments (HTM)

Held-to-maturity investments are non-derivative financial assets with fixed and determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity other than:

a) Those that the entity upon initial recognition designates as at fair value through profit or loss;
b) Those that the entity designates as available-for-sale; and
c) Those meet the definition of loans and receivables.

Held-to-maturity investments are initially recognized at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, issuance agency fee and banking transaction fee). After initial recognition, held-to-maturity financial investments are subsequently measured at amortized cost using the effective interest rate ("EIR") method.

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the period of a financial asset or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial assets or financial liabilities.

HTM investments are subject to an assessment of impairment at the consolidated financial statements date. Provision is made for an HTM investment when there is any objective evidence that the investment is unrecoverable or there is uncertainty of recoverability, resulting from one or more events that have occurred after the initial recognition of the investment and that event has an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables, and borrowing costs of loans".

4.4 *Loans*

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, with the exceptions of:

a) The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;
b) The amounts categorized by the Company as available-for-sale upon initial recognition; or
c) The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available-for-sale.

Loans are recognized initially at cost (disbursement amount of the loans). After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate ("EIR") method.

Amortized cost of loans is the amount at which the loans is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

Loans are subject to an assessment of impairment at the consolidated financial statements date. Provision made for loan is based on its estimated loss which is determined by the negative difference between the market value of securities used as collaterals for such loans and the loan balance. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans".

4.5 *Available-for-sale (AFS)*

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as:

a) Loans and receivables;
b) Held-to-maturity investments; or
c) Financial assets at fair value through profit or loss.

AFS financial assets are recognized initially at cost (acquisition cost plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, available-for-sale financial assets are subsequently measured at fair value.

Any difference arising from the revaluation of AFS financial assets at market value in comparison with previous period is recognized under *"Gain/(loss) from revaluation of AFS financial assets"* in *"Other comprehensive income after tax"* which is a part of the consolidated income statement.

As at the consolidated financial statement date, the Company assessed whether there is any objective evidence that an AFS financial asset is impaired. Any increase/decrease in the balance of provision is recognized in the consolidated income statement under *"Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans"*.

- Where an equity instrument is classified as available-for-sale, evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its original cost. 'Significant' is to be evaluated against the original cost of the asset and 'prolonged' indicates the period in which the fair value has been below its original cost. When any evidence of impairment exists, provision is determined as the difference between the AFS asset's cost and fair value at the assessment date.
- Where a debt instrument is classified as available-for-sale, the assessment of impairment is conducted using the same criteria as those applied for HTM investments. When there is any evidence of impairment, provision for an AFS asset is determined as the negative difference between its fair value and amortized cost at the assessment date.

4.6 *Fair value/market value of financial assets*

Fair value/market value of the financial assets is determined as follows:

- For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation.
- For securities registered for trading on UPCOM, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation.
- For the delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date.
- The market price for unlisted securities and securities unregistered for trading on UPCOM used as a basis for setting up the revaluation is the trading prices of the latest transaction on over-the-counter ("OTC") market.

For securities which do not have reference price from the above sources, the revaluation is determined based on the financial performance and the book value of securities issuers as at the assessment date.

For the purpose of determining CIT taxable profit, the tax bases for financial assets are determined by cost minus (-) provision for diminution in value. Accordingly, market value of securities for provision purpose is determined in accordance with the Circular No. 48/2019/TT-BTC issued by the Ministry of Finance on August 08, 2019 ("Circular 48") and Circular No. 24/2022/TT-BTC amending and supplementing several articles of Circular No. 48/2019/TT-BTC (hereinafter referred to as "Circular 48").

4.7 *Derecognition of financial assets*

A financial asset (or part of a group of similar financial assets) is derecognized when:

- The rights to receive cash flows from the assets have expired; or
- The Company has transferred its rights to receive cash flows from the assets or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
  - The Company has transferred substantially all the risks and rewards of the assets, or
  - The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

4.8 *Reclassification of financial assets*

Reclassification when selling financial assets other than FVTPL

When selling financial assets other than FVTPL, securities companies are required to reclassify those financial assets to financial assets at FVTPL. The difference arising from the revaluation of financial assets AFS which was recognized in "Difference from revaluation of assets at fair value" will be recognized as corresponding revenue or expenses at the date of reclassification of financial assets AFS for selling purpose.

Reclassification due to change in purpose or ability to hold

Securities companies are allowed to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- Non-derivative financial assets at FVTPL or financial assets that are not required to be classified as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables in some special cases or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.

- Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and to be revaluated at fair value. The difference arising from revaluation between book value and fair value are recognized under "Difference from revaluation of assets at fair value" in Owners' equity .

4.9 *Investments in associates*

An associate is an entity in which the Company has significant influence but that is neither subsidiary nor joint ventures. The Company generally deems they have significant influence if they have from 20% of the voting rights.

The Company's investments in associates are accounted for using the equity method of accounting.

Under the equity method, the investment is initially carried in the consolidated statement of financial position at cost. In terms of the acquisition, the difference between cost of the investment and the determinable net asset fair value in correspondence with the Company's shares in associate at the acquisition date is defined as goodwill. Negative goodwill is recognized in "Other investment revenue (share of profits/ (loss) in associates)" of the consolidated income statement. Positive goodwill will be reflected in the value of investment in associate of the consolidated statement of financial position.

When determining the determinable fair value of net assets in associates, the Company applies principles and suppositions as follows:

- Fair value of cash and short-term deposit, payables to suppliers and other short-term liabilities approximate their carrying value due to their short term;
- Fair value of receivables is determined based on estimation of recoverability, therefore, the Company estimates fair value at the cost less provisions for receivables;
- Fair value of financial investments is determined at market prices;
- Fair value of fixed assets approximates their cost less accumulated depreciation;
- Fair value of the qualification in the auditors' report in the audited financial statements of associates is determined as zero (0); and
- Fair value of other immaterial assets and debts is determined as their carrying value.

After the initial recognition, the investment is adjusted to changes in the Company's share in associates' post-acquisition net assets. The consolidated income statement reflects the share of the post-acquisition results of operation of the associates. Changes in net asset value of associates, including changes arisen from revaluation of fixed assets and investments, foreign exchange differences and differences arisen from consolidation of associates are not reflected in the consolidated income statement, but recognized directly in "Undistributed profit" in the consolidated statement of financial position.

The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend receivable from associates is deducted from the carrying amount of the investment.

The financial statements of the associates are prepared for the same reporting period as the Company, using the same accounting policies. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

4.10 Recognition of mortgaged financial assets

During the period, the Company had mortgaged/pledged financial assets which are used as collaterals for financial obligations of the Company.

According to the terms and conditions of the mortgage/pledge contracts, during the valid period of the contracts, the Company is not allowed to sell, transfer or use the mortgaged/pledged assets under repurchase or swap contracts with any other third party.

In case the Company is unable to fulfil its obligations, the mortgagee/pledgee is allowed to use the mortgaged/pledged assets to settle the obligations of the Company after a period specified in the mortgage/pledge contracts since the obligations due date.

The mortgaged/pledged assets are monitored in the Company's consolidated statement of financial position in accordance with accounting principles relevant to the assets' classification.

4.11 Receivables

Receivables are initially recorded at cost and subsequently always presented at cost.

Receivables are subject to review for impairment based on their overdue status or estimated loss arising from undue debts of corporate debtors who have bankruptcy or are under liquidation; or of individual debtors who are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences or have deceased. Increases or decreases to the provision balance are recorded as *"Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans"* and *"Other operating expenses"* in the consolidated income statement.

The provision for doubtful receivables is made in accordance with current regulations.

For receivables that are not yet due but are considered uncollectible, the Company estimates the potential loss (up to the value of the debt recorded in the accounting books) to make provision.

4.12 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises of its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the initial cost of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

4.13 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortization.

The cost of an intangible fixed asset comprises of its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and other expenditures are charged to the consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

4.14 Depreciation and amortisation

Depreciation and amortisation of tangible and intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and Structures	5 - 30 years
Office machineries	3 - 5 years
Means of transportation	6 - 10 years
Office equipment	3 - 5 years
Software	3 - 10 years
Other intangible fixed assets	2 - 5 years

4.15 Investment properties

Investment properties are stated at cost, inclusive of related transaction fees less accumulated depreciation.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company.

Depreciation and amortization of the property is calculated on a straight-line basis over the estimated useful life of each asset. The depreciation period is 27.5 years.

4.16 *Operating lease*

Whether an agreement is determined as a property lease agreement depends on the nature of the agreement at the beginning: whether the implementation of the agreement depends on the use of a certain asset and whether the agreement includes clauses on the use rights of the asset.

Rentals fee respective to operating leases are charged to the consolidated income statement on a straight-line basis over the term of the lease.

4.17 *Prepaid expenses*

Prepaid expenses, including short-term prepaid expenses and long-term prepaid expenses in the consolidated statement of financial position, are amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as long-term prepaid expenses and are amortised over the period from one (01) year to three (03) years to the consolidated income statement:

- Office renovation expenses;
- Office rental expenses;
- Office tools and consumables; and
- Software services extension, maintenance and warranty expenses.

4.18 *Repurchase agreements*

Assets sold under the agreements to be repurchased at a specified future date ("repos") are not derecognized from the consolidated statement of financial position. The corresponding cash received is recognized in the consolidated statement of financial position as a liability. The difference between the sale price and repurchase price is treated as interest expense and is accrued in the consolidated income statement over the life of the agreement using the straight-line method.

4.19 *Borrowings*

Borrowings are stated and recorded at cost of the balance at the end of the accounting period.

4.20 *Payables and accrued expenses*

Payables and accrued expenses are recognized for amounts to be paid in the future for bonds interest payables, goods and services received, whether or not billed to the Company.

4.21 *Covered warrants*

Covered warrants are secured securities with collateral assets issued by the Company, which gives its holder the right to buy an amount of underlying securities at an exercise price or to receive a sum of money equal to the difference between the price (index) of the underlying securities and the exercise price (exercise index), when the former is higher than the latter, at the strike time.

When issued covered warrants, the Company records an increase in covered warrant payables, at the same time monitoring the number of covered warrants still allowed to be issued. The initial costs related to the issuance of the covered warrants like license fee, distribution costs, listing costs, deposits of covered warrants were recorded in "Transaction costs of acquisition of financial assets at FVTPL" in the consolidated income statement. Profit/loss resulted from covered warrant when repurchase, upon the maturity of covered warrants or when covered warrant is recalled, are recorded accordingly in "Gain from disposal of financial assets at FVTPL" or "Loss from disposal of financial assets at FVTPL" in the consolidated income statement.

At the end of the period, the Company re-evaluates the covered warrants at fair value. The decrease in difference arising from revaluation of covered warrants at fair value in comparison with previous period is recognized in Gain from financial assets at FVTPL (Gain from revaluation of outstanding covered warrant payable). The increase in difference arising from revaluation of covered warrants at fair value in comparison with previous period is recognized in Loss from financial assets at FVTPL (Loss from revaluation of outstanding covered warrant payable).

The securities used as hedging for the covered warrants are monitored by the Company. At the end of the period, securities used as hedging for the covered warrants are revaluated at fair value and the difference arising from revaluation of securities at fair value is recorded like the revaluation of financial assets at FVTPL.

4.22 Employee benefits

4.22.1 Post-employment benefits

Post-employment benefits are paid to retired employees of the Company by the Social Insurance Agency, which belongs to the Ministry of Labour and Social Affairs. The Company is required to contribute to these post-employment benefits by paying social insurance premium to the Social Insurance Agency at the rate of 17.5% of an employee's basic monthly salary, salary-related allowances and other supplements. Other than that, the Company has no further obligation relating to post-employment benefits.

4.22.2 Severance pay

According to the Labor Code No. 45/2019/QH14 effective from 01 January 2021 and Decree No. 145/2020/ND-CP of the Government - Elaboration of some articles of the Labor Code on working conditions and labor relations, the Company is responsible for paying a severance allowance equal to half a month's salary for each working year to employees who voluntarily resign and fully meet factors in accordance with provisions of law. Working time to calculate severance allowance is the total time the employee has actually worked for the Company minus the time the employee has participated in unemployment insurance according to the provisions of the law on unemployment insurance and the working time has been paid severance allowance by the employer. The average monthly salary is calculated to pay severance allowance will be based on the average salary of the last six months up to the time the employee quits.

4.22.3 Unemployment insurance

According to Article 33 of the Employment Law No. 74/2025/QH15 which took effect from 01 January 2026 and the Government's Decree No. 374/2025/ND-CP dated 31 December 2025 detailing the implementation of a number of Article of the Employment Law on unemployment insurance, the Company is required to contribute to the unemployment insurance at the capped rate of 1% of salary and wage fund of unemployment insurance joiners and deduct maximum 1% of monthly salary and wage of each employee to contribute to the unemployment insurance fund.

4.23 *Foreign currency transactions*

Transactions in currencies other than the Company's reporting currency of VND are recorded at the actual transaction exchange rates of commercial banks at transaction dates. At the end of the period, monetary balances denominated in foreign currencies are determined as follows:

- The Company's demand deposits in foreign-currency are translated at the average buying and selling exchange rate for telegraphic transfers of the commercial bank where the Company maintains its deposit accounts.
- Other monetary items are retranslated at the average buying and selling exchange rate for telegraphic transfers of the commercial bank where the Company conducts transactions regularly.

All foreign exchange differences incurred during the period and arisen from the revaluation of monetary accounts denominated in foreign currencies at the end of the period are taken to the consolidated income statement.

4.24 *Currency derivative contract*

The Company participates in currency transactions with banks which provide services (foreign currency forward transactions, foreign currency swaps,...) for the purpose of hedging and mitigating risks of exchange rate and cash flow in the future. Gain/loss arising from transactions during the period is recognized in the consolidated income statement.

4.25 *Treasury shares*

Owners' equity instruments issued by the Company which are reacquired (treasury shares) are recognised at cost and deducted from owners' equity. No gain or loss is recognised upon purchase, sale, issue or cancellation of the Company's owners' equity instruments.

4.26 *Conversion of subsidiaries' financial statements into parent company's accounting currency*

Subsidiaries' financial statements which are prepared in the foreign currency that is different from the Parent Company's accounting currency are converted into the Parent Company's accounting currency for consolidation purpose. Actual transaction exchange rates used for converting subsidiaries' financial statements are determined as follows:

- For assets, the exchange rate used for translation is the banking buying rate at the reporting date;
- For liabilities, the exchange rate used for translation is the banking selling rate at the reporting date.
- If the gap between the banking buying rate and banking selling rate does not exceed 0.2%, the Company is allowed to apply the average purchasing and selling rate.
- All items on the consolidated income statement and cash flow statement are converted using the actual exchange rate at the time of the transaction. Average exchange rate is allowed to be applied if it approximates the actual exchange rate at the time of the transaction (the difference is 1% or less). If the gap between the exchange rate at the beginning of the period and at the end of the period is higher than 20%, the Company shall apply the exchange rate at the end of the period.

Foreign exchange rate difference arising from the translation of subsidiary's financial statements is accumulatively reflected in "Foreign exchange rate difference" item of the Owners' Equity section of the consolidated of financial position.

4.27 *Revenue recognition*

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of receipts or receivables less trade discount, concessions and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from brokerage services

Where the contract outcome can be reliably measured, revenue is recognized by reference to the stage of completion. Where the contract outcome cannot be reliably measured, revenue is recognized only to the extent of the expenses recognized which are recoverable.

Revenue from trading of securities

Revenue from trading of securities is determined by the difference between the selling price and the weighted average cost of securities sold.

Other income

Revenues from irregular activities other than turnover-generating activities are recorded to other incomes as stipulated by VAS 14 – "Revenue and other income", including: Revenues from asset liquidation and sale; fines paid by customers for their contract breaches; collected insurance compensation; collected debt which had been written off and included in the preceding period expenses; payable debts which are now recorded as revenue increase as their owners no longer exist; collected tax amounts which now are reduced and reimbursed; and other revenues.

Interest income

Revenue is recognized on accrual basis (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends
Income is recognized when the Company's entitlement as an investor to receive the dividend is established, except for dividend received in shares in which only the number of shares is updated.

Properties selling/leasing revenue

Properties selling revenue is recognized when all conditions are satisfied according to current accounting regulations.

Properties leasing revenue is recognized into consolidated operational result on a straight-line basis over the leasing contract life.

Other revenues from rendering services

Where the contract outcome can be reliably measured, revenue is recognised by reference to the stage of completion.

Where the contract outcome cannot be reliably measured, revenue is recognised only to the extent of the expenses recognised which are recoverable.

4.28 *Borrowing costs*

Borrowing costs include accrued interest and other expenses which are directly attributable to the Company's borrowings.

4.29 *Cost of securities sold*

The Company applies moving weighted average method to calculate cost of equity securities sold.

4.30 *Corporate income tax*

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the reporting date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognized directly to owners' equity, in which case the current income tax is also dealt with in owners' equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax

Deferred income tax is provided using for temporary differences at the reporting date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction effects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which deductible temporary differences, carry forward of unused tax credits and unused tax losses can be utilized, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to a certain extent that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Previously unrecognized deferred income tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset realized, or the liability is settled based on tax rates and tax laws that have been enacted at the reporting date. Deferred tax is recorded to the consolidated income statement, except when it relates to items recognized directly to owners' equity, in which case the deferred tax is also dealt with in owners' equity. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxable entity and the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

4.31 *Owners' equity*

Contributed capital from shareholders

Contributed capital from stock issuance is recorded in Charter Capital at par value.

Undistributed profit

Undistributed profit comprises of realised and unrealised undistributed profit.

- Unrealised profit of the period is the difference between gain and loss arisen from revaluation of financial assets at FVTPL or others through profit or loss in the consolidated income statement and deferred corporate income tax payables related to the increase in revaluation of FVTPL financial assets and others.
- Realised profit during the period is the net difference between total revenue and income, and total expenses in the consolidated income statement of the Company, except for gain or loss recognized in unrealised profit.

Reserves

Other reserves are appropriated in accordance with the Resolution of the General Meeting of Shareholder.

4.32 *Appropriation of net profits*

Net profit after tax is available for appropriation to shareholders after being approved by the General Meeting of Shareholders and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

4.33 *Segment information*

A segment is a component determined separately by the Company which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Company's business segment is derived mainly from the services provided to investors. Management defines the Company's geographical segments to be based on the location of the Company's assets.

4.34 *Related parties*

Parties are considered to be related parties of the Company if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprises or individuals, including close members of their families.

4.35 *Nil balances*

Items or balances required by Circular No. 210/2014/TT-BTC dated 30 December 2014, Circular No. 334/2016/TT-BTC dated 27 December 2016 issued by the Ministry of Finance that are not shown in these consolidated financial statements indicate nil balance.

7. FINANCIAL ASSETS

Concepts of financial assets

Cost

Cost of a financial asset is the amount of cash or cash equivalents paid, disbursed or payable of such financial asset at its initial recognition. The transaction costs incurred directly from the purchase of financial asset might be included in the cost of the financial asset or not depending on the category that the financial asset is classified in.

Fair value/market value

The fair value or market value of a financial asset is the price at which the financial asset would be traded voluntarily between knowledgeable parties on an arm's length basis.

The fair value/market value of securities is determined in Note 4.6.

Amortised cost

Amortized cost of a financial asset (which is debt instrument) is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or irrecoverability (if any).

For presentation purpose, provision for diminution in value or irrecoverability of financial assets is recognised in "Provision for impairment of financial assets and mortgage assets" in the consolidated statement of financial position.

Carrying amount

Carrying amount of a financial asset is the amount at which the financial asset is recognized in the consolidated statement of financial position. Carrying amount of a financial asset might be recognised at the fair value or market value (for FVTPL and AFS financial assets) or at amortised cost (for HTM investments and loans) depending on the category that the financial asset is classified

39. CORPORATE INCOME TAX

39.1. Corporate income tax ("CIT")

The tax returns filed by the Company are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the financial statements could change later upon final determination by the tax authorities.

The current tax payable is based on taxable profit for the period. The taxable profit of the Company differs from the profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are not taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted by the reporting date. The company is obliged to pay corporate income tax at the rate of 20% on total taxable profits according to Decree No. 320/2025/TT-BTC effective from 15 December 2025.

The estimated current corporate income tax is represented in the table below:
